COFFEE GRINDERS

GRINDMASTER

RETAIL 800 Series

Compact and Powerful

Don't let their size fool you. The 800 series coffee grinders may seem unassuming with their space-saving size of only 7" - 8" wide. But these little guys use their fast grind speed and powerful, energy-efficient 0.5 hp motor to make quick work of coffee beans.

- Motor includes circuit breaker.
- Multiple grind particle profile selections.
- Ideal for low to medium volume specialty shops, grocery stores, doughnut shops, and c-stores.
- Precision burrs guaranteed to process 40,000 lbs. of coffee at medium grind.
- Exceptional warranty program: burrs - 4 years or 40,000 lbs. of coffee, all other components - 2 years.

Please see our complete line of espresso grinders from page 59.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
 810S (810-BS)	Black with 1.5 lbs. hopper	22" x 7" x 14"
 835S (835-BS)	Black with 1.5 lbs. hopper	22" x 7" x 15"
 875S (875-BS)	Black with 3 lbs. hopper	28" x 7" x 15"
 875S (875-RS)	Red with 3 lbs. hopper	28" x 7" x 15"
 890BS (890-BS)	Black with European slicing burrs for precision grinding and 3 lbs. hopper	28" x 7" x 15"
 890T (890-B-T)	Black with European slicing burrs for precision grinding and 5 lbs. hopper. <i>Does not include base or tray. Must be bolted to counter.</i>	31.25" x 7.5" x 14"

WATER FILTER SYSTEM

Water Filter System for RC400 Single Cup Brewers

Water Softening and Scale Protection

Effectively filters dirt, extra-fine particles, and cloudiness, reduces limescale, and chlorine taste and odor.

- Provides 5 Micron Water Filtration
- Treatment of hardness up to 6 Grains Per Gallon
- Flow Rate: 1.5 gpm
- Temperature Rating: 35°F -100°F
- Capacity: 3,000 gallons
- Working Pressure: 10 - 125 psi
- Great RO pre-filtration

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
250-00034	Water filter kit contains all needed hardware and filter for application to the RC400 Single Cup brewer	12" x 4" x 4"

WATER PUMP KIT

External Bottled Water Pump Kit

Provides Water Wherever You Are!

For remote locations where a water supply is inaccessible, this portable and compact point-of-use pump dispenses purified water from five gallon bottles.

- Quick-connect ports allow assembly of system and connection in seconds.
- Built-in back-flow prevention.
- Long-life motor ensures years of reliable operation.
- Illuminated on/off switch provides clear visibility.
- Quiet operation with noise-dampening rubber feet.
- Thermal overload protection prevents overheating.
- Auto shut-off when the water source is depleted and restarts when water is restored.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
63174	Includes main module with on/off rocker switch, single-inlet suction wand and hose assembly with universal seal cap, 20 feet of 0.25" discharge tubing, fittings kit, wall power transformer	Control Box: 3" x 5.1" x 7.6" Suction Wand: 23" length (4" extends past the top of the bottle)

COFFEE BREWERS

GRINDMASTER

RC400 Single Serve Coffee Brewers

Authentic Flavors of the World, One Cup at a Time

Brew great tasting single serve beverages with the stylish, powerful, and easy-to-use RC400. Compatible for use with any single-serve capsule, including RealCup™ and K-Cup®. Pulse brew and pre-infusion are optimized for coffee, tea, and cocoa, and the patent-pending brew chamber ensures even water distribution for full flavor every time.

- Plumbed in and pour-over capable right out of the box.
- 72 oz. cold water reservoir.
- Large touchscreen and easy-to-use one-touch controls.
- Digital control makes selection of beverage type and size simple.
- Faster brew with no lag time.
- More operator settings, including resettable brew count and customizable default options.
- Six brew size options from 4 oz to 16 oz. provide user with the selection of their choice.
- Adjustable platform for oversized travel mugs.
- Patented brew chamber ensures even water distribution for full flavor every time.
- Energy save mode engages at a programmed time of day, or when brewer has been inactive.
- Added safety with locking brew chamber.
- Commercial grade parts ensure a long life in heavy-usage locations.
- Repairable machine with available replacement parts.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
RC400 (0001-10000)	Single cup capsule brewer can be used as pourover or plumbed in. Plumbing: water pressure from 10-100 psi required	15.75" x 10.75" x 14.75"

Optional Water Filter for RC400*

MODEL	DESCRIPTION
250-00034	Water filter kit contains all needed hardware and filter for application to the RC400 Single Cup brewer

* RealCup™ brand has no affiliation with K-Cup® or Keurig, Inc. Keurig® and K-Cup® are registered trademarks of Keurig, Inc.

POUROVER COFFEE BREWERS

Portable Pourover Coffee Brewers

Perfect Coffee. Will Travel.

This just may be the brewer you are looking for.
Adaptable. Flexible. Solid and Dependable.

Meet the Portable Pourover Family of Coffee Brewers. Stand-alone, temperature-controlled powerhouses that brew directly into decanters or airpots. Most models have additional warmers built-in, so you can keep extra decanters of coffee ready to be served.

- Completely portable unit.
- Convenient, easy operation for consistent, high-quality coffee.
- Just plug it in and go! Requires no plumbing.
- Simply pour in the water for a fresh, delicious pot of coffee.
- All stainless steel construction.
- 1.2 gallon tank capacity.

	MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
	CPO-1P-15A (0002-10001)	Warmers: 1 bottom NSF Sanitation, cNSFus Electrical Certification	17.5" x 8.25" x 17.75"
	CPO-2P-15A (0002-20001)	Warmers: 2 total: 1 top and 1 bottom NSF Sanitation, NSF Electrical Certification	18.5" x 8.25" x 17.75"
	CPO-3P-15A (0002-30001)	Warmers: 3 total: 2 top and 1 bottom NSF Sanitation, NSF Electrical Certification	18.5" x 8.25" x 17.75"
	CPO-3RP-15A (0002-30005)	Warmers: 3 total: 1 right top, 1 bottom, 1 right bottom NSF Sanitation, NSF Electrical Certification	17.5" x 16.5" x 17.75"
	CPO-SAPP (0002-00003)	No Warmers: Brews directly into airpot NSF Sanitation, cNSFus Electrical Certification	25" x 8.25" x 17.75"

Note: Decanters and airpots sold separately. See pages 18-19.

DIGITAL AIRPOT COFFEE BREWERS

GRINDMASTER

PrecisionBrew® Digital Airpot Brewers

Lasting Warmth

Digitally controlled with PrecisionBrew® Technology. The brewer holds the brew temperature to +/- 1° F during the complete brew cycle.

- Precise brew temperature control. The brewer will maintain the brew temperature to +/- 0.5 C (1 F).
- The number of pulses, pulse-on and pulseoff time can be programmed to extract more solids (TDS) from the coffee.
- Brew Volume can be set by “teach” mode to eliminate trial-and-error set-up.
- The brewer is set to prevent brewing until the water has reached the optimal brew temperature thus reducing coffee waste.
- The brewer settings can be “locked” to prevent tampering. No unexpected changes to coffee flavor which protects customer satisfaction and prevents coffee waste.
- Energy saving option to shut off the tank heater after a set amount of time of inactivity.
- The unit has wakeup time so the customer can tell the unit to heat at a set time.
- Power option on front that shuts off heater without reaching behind brewer.
- “Half Brew” function allows to prepare half volume to reduce water and energy consumption and minimize coffee waste.
- The modern design features all stainless steel construction, rounded corners, and attractive control panel.
- The operator interface has universally recognizable symbols to make the machine easy to use correctly regardless of the language spoken by the operator.
- The smooth design of the interface facilitates easy cleaning and sanitization of the contact area.
- The brewer counts the number of brew cycles for preventative maintenance. No equipment downtime or lost sales due to maintenance.
- A hot water faucet is conveniently located on the front of the machine for preparing single servings of tea, soup, and cereal quickly.
- Power option on front that shuts off heater without reaching behind brewer.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
 B-SAP-120V 1009-008	Single, digitally controlled brewer brews into a 64-ounce Airpot.	26-9/16" x 8-1/16" x 18-5/16"
 B-SAP-240V 1009-009	Single, digitally controlled Airpot brewer brews into a 64-ounce Airpot.	26-9/16" x 8-1/16" x 18-5/16"
 B-DAP-240V 1009-010	Twin, digitally controlled Airpot brewer brews into a 64-ounce Airpot.	26-9/16" x 16-1/16" x 18-5/16"

Note: Airpots sold separately. See page 19. Contact Grindmaster™ for more information. Specifications subject to improvement or change without notice

Electrical: *NEMA 5-15P plug included with 120V models; NEMA 6-20P plug included with single 240V models; NEMA L6-30P plug included with twin 240V models.

Brew Capacity: (64 oz. decanters per hour) (12) at 120V; (14) at 240V single models; (33) at 240V twin models.

DIGITAL DECANTER COFFEE BREWERS

PrecisionBrew® Digital Decanter Brewers

Exact Temperature

Digitally controlled with PrecisionBrew® Technology. The brewer holds the brew temperature to +/- 1° F during the complete brew cycle.

- Precise brew temperature control. The brewer will maintain the brew temperature to +/- 0.5 C (1 F).
- The number of pulses, pulse-on and pulseoff time can be programmed to extract more solids (TDS) from the coffee.
- Brew Volume can be set by “teach” mode to eliminate trial-and-error set-up.
- The brewer is set to prevent brewing until the water has reached the optimal brew temperature thus reducing coffee waste.
- The brewer settings can be “locked” to prevent tampering. No unexpected changes to coffee flavor which protects customer satisfaction and prevents coffee waste.
- Energy saving option to shut off the tank heater after a set amount of time of inactivity.
- The warmers turn off after a customerset amount of time to prevent damaging decanters, scalding coffee, or even creating a safety issue.
- The unit has wakeup time so the customer can tell the unit to heat at a set time.
- Power option on front that shuts off heater and warmers without reaching behind brewer.
- The brewer counts the number of brew cycles for preventative maintenance. No equipment downtime or lost sales due to maintenance.

SHUTTLE® COFFEE BREWERS

GRINDMASTER

PrecisionBrew® Coffee Solutions

Touchscreen Digital Interface

The PrecisionBrew family of coffee brewers are all equipped with advanced touchscreen digital interfaces - 7" color displays with intuitive, icon-driven menus for brewing and operation. Multiple recipe selections, interactive diagnostics, programmed brewing, and attractive, eye-catching merchandising for your machine are all available through the straightforward, easy-to-understand interfaces, keeping the whole process smooth and easy.

Encapsulair™

The First-in-Industry technology Encapsulair found in the PrecisionBrew Air-heated models, uses the insulating power of air between its internal chambers to surround and protect your brewed coffee. The Encapsulair Shuttle maintains your coffee's temperature and flavor, giving you consistent quality and satisfied customers while reducing wasted beverages.

Java-tate™

The Java-tate feature gently stirs the coffee at regular, short intervals to keep undissolved particles in suspension, ensuring a consistent flavor profile from the first cup to the very last. Customers can see the blending through the clear sight glass on the front of the machine. Only available in Encapsulair shuttles.

Virtual Sight Glass

The backlit, internal sight glass in the Encapsulair shuttle provides an LED readiness and freshness indicator for the brew. The color changing light lets you know at a glance when the brew is complete, and when it is time to make more coffee. Plus, the internal placement of the sight glass means no cold-slugging of coffee, and no sight glass to clean!

Shuttle Sensors

Everything about the PrecisionBrew has been optimized to ensure health, safety, and easy operations. The sensor system will not allow brewing if the shuttle is not present or misaligned. Safety first!

Update via USB Drive

Every PrecisionBrew model is programmable locally on the machine, and updates can be made via USB. Eliminates the need to manually key in changes to every machine at every location requires less time in product start-up, travel, and management. Pre-programmed machines can also be transferred to different locations, ensuring a consistent process of brewing.

SHUTTLE® COFFEE BREWERS

GRINDMASTER

PrecisionBrew® Air-Heated Shuttle® Brewers

Maintain Delicious Flavor

Single and twin digital virtual sight glass models brew into 1.5 gallon air-heated Shuttle(s).

- Portable Encapsulair Shuttles insulate with air between the internal chambers, maintaining coffee temperature and flavor.
- Java-tate technology inside the shuttles gently stirs the brewed coffee at regular, short intervals, to keep undissolved particles in suspension, ensuring a consistent flavor profile from the first cup to the very last.
- The backlit, internal sight glass in the Encapsulair shuttle provides an LED readiness and freshness indicator for the brew. The color changing light lets you know at a glance when the brew is complete, and when it is time to make more coffee.
- The internal placement of the sight glass means no cold-slugging of coffee, and no sight glass to clean!
- Advanced touchscreen digital interface simplifies and streamlines brewing and operation.
- Shuttle safety sensors prevent brewing when server is not in place.
- Standard electronic basket lock prevents basket removal during brewing and dripout.
- 3.2 gallon heating tank per brew head.
- (3) independent brew volumes of 0.5, 1.0, 1.5 gallons let you be prepared for a busy morning rush and eliminate waste during slower sales periods.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
 PBC-1A (1004-001)	Single digitally controlled brewer with virtual sight glass and compatible with Air -Heated Shuttle*	30.13" x 9.13" x 18.88"
 PBC-2A (1004-003)	Twin digitally controlled brewer with virtual sight glass and compatible with Air -Heated Shuttles*	30.13" x 18.13" x 18.88"

* Air Heated Shuttles sold separately.

ICED TEA DISPENSERS

GRINDMASTER

Front of the House Stainless Steel Tea Dispensers

Streamlined and Elegant, With No Liner Required!

The attractive finish is polished and professional. It's large 3 gallon capacity is perfect for self-service beverage areas. Simple to use, easy-to-clean, hard-wearing. We are still trying to find something we don't like about these dispensers.

No Liner Needed

Passivated interior and exterior protects the flavor of the beverage, and does not require the use of a liner. This makes these dispensers easier to clean and sanitize than plastic urns on the market, with substantial cost savings and environmental benefit.

Rugged Construction

Stainless steel construction and faucet connection withstands heavy use, is rust resistant, and easy to clean. Laser welds are heavy duty, stand up to repeated use, and resist leakage.

Easy Brewing and Dispensing

Fits under most commercial brewers - just remove the lid and brew directly into the dispenser. With four dispensers to choose from, you can select the perfect one for your usage.

Cleaning Made Simple

All parts and components are removable, allowing it to be easily and thoroughly cleaned.

Effortless Transportation

Stainless steel handles make it easy to lift and carry.

9 1/2" Cup Clearance

Easily fill large to-go cups or tall iced tea glasses.

Slim Design, Considerable Capacity

Its large 3 gallon size guarantees that your drinks will be in good supply, and its compact design allows it to easily fit where you need it, and not waste much-needed counter space.

AUTOMATIC ESPRESSO MACHINES

GRINDMASTER

Korinto Prime Automatic One-Step with Powdered Milk

Barista Quality Drinks at the Push of a Button

Ideal for direct-to-public dispensing, serving up to 100 drinks daily. The user selects the drink they want, and the machine does the rest: doses the beans, grinds them, loads and tamps the portafilter, pulls the extraction using the right water temperature and water volume, and mixes in the milk or other solubles to deliver the completed drink. The machine then ejects the grounds into an internal reservoir, and then runs a quick cleaning cycle on itself so it's ready for the next customer.

No operator skill required, exceptional quality, consistency, and variety of drinks, and the small footprint doesn't take up a lot of space. Profitable addition to any existing beverage program or an easy entry point into the specialty beverage market. Perfect choice for cafeterias, refreshment areas for business, education, hospitals, offices, foodservice, bagel shops, bakeries, and clubhouses.

- 8 programmable drinks
- 7 programmable adjustments for every drink
- Coffee bean hopper and 2 soluble hoppers
- Back-lit, touch sensitive selection panel
- Fits up to 9.45" cups
- Quiet running at <70 dB
- Includes installation by a Unic certified service provider.
(water filter not included)

	MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)

SUPER-AUTOMATIC ESPRESSO MACHINES

Tango Milk Series
Super-Automatic One-Step with real Milk

Automatically Delicious

Exceptional quality in a variety of drinks with little operator skill. All models can be public-facing in some areas. Push a button and the machine will grind the beans, pull the extraction, froth and steam its refrigerated milk, and add it into the drink.

Touchscreen Interface Offers Programmable Control of:

- 48 drink recipes per grouphead
- 2 separate coffee grinds
- 2 pre-infusion methods
- Boiler temperature
- Tamping
- Coffee dose and water dose

Easy use makes it a great choice for locations where espresso is not the focus, or with seasonal employees. Perfect in cafés, cafeterias, offices, refreshment areas for business, education, and hospitals.

- Integrated SteamAir wand with auto milk foamer and programmable temperature control.
- Quick clean cycles every 90 drinks; complete group auto clean cycle every 24 hours.
- ACE L/C, ST Solo L/C and ST Duo L/C offer temperature regulation for the steam and the group.
- Side fridge options shown here are sold separately from all espresso machine models. Select either the One-gallon Fridge option (250-00017) or the Two-gallon fridge option (2901-000) when ordering any of our One-Step Tango Milk Series model.
- Includes installation by a Unic certified service provider.

SUPER-AUTOMATIC ESPRESSO MACHINES

Tango Series Super-Automatic Two-Step

Loved by All

A beginning barista will appreciate the easy use, and a skilled barista will love the control. The beans are ground and espresso pulled by the machine, but the user mixes the steamed or frothed milk and other flavorings for each drink.

Programmable Automatic SteamAir wand controls the temperature and foam time giving the user more control over the amount and type of foam, froth, and milk in the drink. The added control also gives the user flexibility to steam non-coffee drinks like chai tea and hot chocolate.

Touchscreen Interface Offers Programmable Control of:

- 48 drink recipes per grouphead
- 2 separate coffee grinds
- 2 pre-infusion methods
- Boiler temperature
- Tamping
- Coffee dose and water dose

Produces a delicious drink even with an operator who has only basic skills, and offers more skilled baristas greater variety and control. Made-to-order for cafés, hotels, bakeries, coffee shops, cafeterias, restaurants, drive-thrus, or foodservice.

- Programmable hot water dispenser for other hot drinks.
- Quick clean cycles every 90 drinks; complete group auto clean cycle every 24 hours.
- Includes installation by a Unic certified service provider.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
 ACE (1011-001)	One group with double spouts, (2) coffee bean hoppers: 3.75 lbs. and 2.6 lbs., (2) precision grinders with 64 mm Mahlkonig burrs	32" X 18" X 24" Height includes 3" stainless steel legs.
 ST Solo (1011-002)	One group with double spouts, (2) coffee bean hoppers: 3.75 lbs. and 2.6 lbs., (2) precision grinders with 80 mm Mahlkonig burrs	32" X 18" X 24" Height includes 3" stainless steel legs.
 ST Duo (1011-003)	Two groups with double spouts, (2) 3.75 lbs. coffee bean hoppers (2) precision grinders with 80 mm Mahlkonig burrs	32" X 24" X 24" Height includes 3" stainless steel legs.

AUTOMATED POD ESPRESSO MACHINES

Pony Series

Pod Automated Espresso Machine: Available in Two-Step or One-Step with refrigerator

Pod Perfection

Using 45mm ESE coffee pods to pull espressos, and the automatic SteamAir wand to create just-right milk foam, these machines are ideal where quality and consistency are vital, despite multiple users or employee turnover.

Automatic SteamAir wand is pre-programmed to foam milk, controlling temperature and foam time. User mixes the milk and any other flavorings into the drink. The SteamAir wand gives user more control over amount and type of foam, froth, and milk in the drink, and allows for non-coffee drinks like chai tea and hot chocolate to be created.

Touchscreen Interface Offers Programmable Control of:

- 6 volumetric water settings per grouphead
- Pre-infusion

Excellent for locations such as cafés, restaurants, bakeries, smaller coffee shops, bed & breakfasts, and hotels, and the perfect choice for catering.

- Programmable hot water dispenser for other hot drinks.
- Quick clean cycles every 90 drinks; complete group auto clean cycle every 24 hours.
- Includes installation by a Unic certified service provider.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)

TRADITIONAL VOLUMETRIC ESPRESSO MACHINES

Classic Series

Espresso equipment designed for professional use and a sensible budget.

Elegant lines and reliable technologies appreciated by coffee professionals, the CLASSIC series is made more attractive by its quality/ price ratio. Designed and manufactured by UNIC, the CLASSIC series including the models CLASSIC 1 and CLASSIC 2, is the perfect traditional espresso machine to ensure an excellent quality espresso result, and consistency even during the busiest periods of the day.

Choose a single-group or two-group machine. Each model features heavy duty components and welded construction, a direct mounted boiler group head for thermal stability and reliable extraction, easy access to components for uncomplicated serviceability, and unlimited steam. With its easy operation and serviceability, the CLASSIC series offers technical features ensuring outstanding coffee throughout the day:

- 4 programmable volume keys
- Semi-automatic key for manual control
- Integrated shot timer
- Steam operated through switch with on, off and pulse positions
- Hot water dispenser with flow regulation
- Direct to boiler mounted group head for shot temperature stability
- Overabundant steam supply to eliminate recovery time
- Built-in cup warmer
- Includes installation by a UNIC certified service provider.

TRADITIONAL VOLUMETRIC ESPRESSO MACHINES

Mira Series

Extraordinary Flexibility for an Automatic!

Incredibly versatile MIRA series can switch from standard groupheads to pods and capsules for more automation, then quickly switch back again. Allows the barista precise control over the grind, dose, and tamp of every drink, while the machine takes care of the extraction. Or, switch to more automation and ease with pods!

Preset volumes are programmed for a variety of drinks, guaranteeing consistent shots every time even with different baristas. A manual override button lets the operator control the shot size, allowing for custom drinks. Barista can multi-task and steam milk while shot is being pulled, allowing for better productivity.

- 4 programmable volumes plus manual per grouphead.
- Hot water dispenser for additional drinks.
- User monitors and adjusts for correct brew and steam temperature.
- Automated back-flushing cycle for daily cleaning.
- Integrated running shot timer.
- Solid Teflon steam wands for easy cleaning.
- Direct-to-boiler mounted grouphead for shot temperature stability.
- Twin pressure gauge for pump and steam.
- Diagnostics display for easy trouble shooting.
- Includes installation by a Unic certified service provider.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)

ESPRESSO DOSER GRINDERS

Doser Delivery Espresso Grinder Models:

A durable and reliable approach to grinding for espresso. The smooth and responsive action of the doser lever movement is much appreciated by the busy barista. Steady Lock step-less grind size adjustment paired with adjustable dosing vanes make these doser espresso grinders the durable and reliable workhorses of the cafe. Each model is also equipped with an asynchronous motor with thermal cut-out to address overheating safety, and sturdy polycarbonate hoppers.

- CDE6x is an efficient space saving commercial model with a timer adjustable from 5 seconds to 1 minute.
- CDE7A automatically keeps the doser chute always full and ready for dispensing as the grinder stops when the doser is full.
- CDE8 is automatic as well and is designed for those high turnover sites, with cooling fans and 83mm burrs for a speedy and consistent delivery.

 CDE6X (1304-018)	Timer controlled 64mm flat burr dosing grinder with gearless adjustable timer dial Capacity: Up to 200 drinks daily Bean Hopper: 3.5 lbs. (1.6 kg)	21" X 11" X 7"
 CDE7A (1304-000)	Automatic medium capacity 64mm flat burr dosing grinder Capacity: Up to 200 drinks daily Bean Hopper: 3.5 lbs. (1.6 kg)	25" X 12" X 9"
 CDE8 (1304-017)	Automatic large capacity 83mm flat burr dosing grinder with cooling fans Capacity: 200 to 300 drinks daily Bean Hopper: 3.5 lbs. (1.6 kg)	25" X 12" X 9"

ON-DEMAND ESPRESSO GRINDERS

On-Demand Espresso Grinders:

Continuing down the path from our doser grinders, improved dose accuracy and product freshness are the keystone features of our on-demand grinder line. Programmable dosing keys and a direct-to-filter path for the ground coffee ensure that the product is always freshly ground and served at its best, while also reducing waste and increasing productivity.

- Each model includes:
- Hands-free operation
- Multi-key touch display controls for an easy programming experience
- The E37S, SL, T, and K all feature the Quick Set Gear for the most easy and precise grind adjustment and the Silent System for low decibel output

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
 CDE6P (1304-001)	On-Demand 64mm flat burr grinder with programmable timed grinding with stepless infinitesimal grinding adjustment Capacity: Up to 200 drinks daily Bean Hopper: 3.5 lbs. (1.6 kg)	23" X 9" X 7"
 CDE37J (Black 1304-002), (White 1304-003)	On-Demand medium capacity 64mm flat burr grinder with programmable timed grinding with stepless infinitesimal grinding adjustment Capacity: Up to 200 drinks daily Bean Hopper: 3.5 lbs. (1.6 kg)	22" X 12" X 9"
 CDE37S (Black 1304-008), (White 1304-009)	On-Demand large capacity 83mm flat burr grinder with programmable timed grinding with stepless Quick Set Gear grinding adjustment Capacity: Up to 300 drinks daily Bean Hopper: 3.5 lbs. (1.6 kg)	22" X 12" X 9"
 CDE37SL (Black 1304-015), (White 1304-016)	On-Demand very large capacity 83mm flat burr grinder with programmable timed grinding with stepless Quick Set Gear grinding adjustment and cooling fans Capacity: Up to 500 drinks daily Bean Hopper: 3.5 lbs. (1.6 kg)	25" X 12" X 9"
 CDE37T (Black 1304-011), (White 1304-012)	On-Demand very large capacity 83mm flat titanium burr grinder with programmable timed grinding with stepless Quick Set Gear grinding adjustment and cooling fans Capacity: Up to 500 drinks daily Bean Hopper: 3.5 lbs. (1.6 kg)	25" X 12" X 9"
 CDE37K (Black 1304-005), (White 1304-006)	On-Demand very large capacity 71mm Conical burr grinder with programmable timed grinding with stepless Quick Set Gear grinding adjustment and cooling fans Capacity: Up to 500 drinks daily Bean Hopper: 3.5 lbs. (1.6 kg)	25" X 12" X 9"

ORANGE JUICE MACHINES

Automatic Efficiency and Juicy

Quick, Efficient, and Juicy

The exclusive design of the juicer separates the peel from the pulp, so that it is not pressed during the squeezing process. The peel never touches the juice, ensuring sanitation.

- Micro-serrated slicing blade - heavy-duty stainless steel blade strong enough to quickly slice through the thickest peel.
- Available carousel-style automatic feeder - fruit is automatically fed into the machine quickly and efficiently as the feeder rotates.
- Fruit Diameter: 2.36" - 3.2"

COLD BEVERAGE DISPENSERS

Crathco

PREMIX Simplicity® Bubblers®

Sleek Design

Dispense up to four flavors in 2.4 or 4.75 gallon clear plastic bowls on a stainless steel base with 9" cup clearance.

Agitator Models

Choose the minimal foaming system in the agitator model and pair it with our BPA free bowl assembly kit.

Interchangeable Bowls

Different size bowls fit the same machine!

Easily convert your Simplicity Bubbler to the best bowl configuration for your needs.

Wherever you have two 2.4 gallon bowls on a Simplicity base, you can replace them with a 4.75 gallon bowl and vice versa.

Note: The Triple Tall Models (CS-3L Series) are not interchangeable.

COLD BEVERAGE DISPENSERS

Crathco

PREMIX
Simplicity® Bubblers®

Reduced Maintenance

Fewer removable parts also means less maintenance and a longer lifetime.

More Service and Safety

Interchangeable bowls with locking lids to protect your beverage and your customers.

Dispense Levers

Dispense levers can be removed quickly and easily without affecting the product dispense valves.

Easy and Better Sealing

Advanced sealing guards against leakage, providing trouble-free usage.

COLD BEVERAGE DISPENSERS

Crathco

PREMIX Simplicity® Bubblers®

Less Equals More

Simplicity pre-mix dispensers are the first machines that are proud to offer less. Less counter space with their compact size. Less time and effort in cleaning and disassembly. Less wear and power usage. Less waste, with product dispensed to the last drop. Less worry with fewer removable parts. And, less maintenance. Which we believe gives you much, much more.

- Pre-mix dispenser with stainless steel base and clear plastic easy-clean bowls.
- Unique to Simplicity more efficient front-to-back air circulation. Efficient cooling uses less energy and saves money.
- Easy-off bowl release system for faster and easier assembly and disassembly.
- Design enables machine to dispense product until the very last drop.
- Locking lids standard in order to ensure product safety and quality.
- Fewer removable parts to simplify cleaning and reduce maintenance, including removable tray.
- 9" cup clearance for a variety of drinks.
- Temperature range from 35 - 41°F.
- BPA Free Bowl options available.

FROZEN GRANITA DISPENSERS

Crathco

I-Pro Frozen Granita Dispensers

Introducing the most advanced professional slush, sorbet, and granita machine in the world. Even safe for milk!

High performance, ultramodern design, and user-friendly. Insulating technology increases cooling power, saves energy and money, and reduces external condensation. Choose from either (2) or (3) 2.9 gallon insulated bowls with either mechanical or electronic control board and timer, optional UV lights for sanitation, and optional light panel. Perfect solution for restaurants, coffee shops, bars, amusement parks, convenience stores, kiosks, and much more.

- All models are certified NSF-6 safe for milk.
- Transparent bowl encourages impulse purchasing.
- Programmable freeze and defrost mode.
- Efficient safety mechanism is activated when cover is lifted. All moving parts automatically and immediately stop.
- Lockable lid.
- Adjustable product consistency.
- Black finish.
- Commercial grade parts ensure a long life in heavy-usage locations.

FROZEN GRANITA DISPENSERS

Crathco

Frosty Frozen Granita Dispensers

Perfect for Indoor or Outdoor Use

Frosty Frozen Dispensers are the go-to model when you want large-sized, high-performance equipment, without a high investment. Slushes, sherbets, and other frozen treats are created with a double mixing system that prevents ice accumulation, for optimum product consistency that is also adjustable.

The black and stainless steel finishes and illuminated lid encourage impulse purchasing.

- Efficient safety mechanism is activated when cover is lifted. All moving parts automatically and immediately stop.
- All models are certified NSF-6 safe for milk.
- LED illumination system.
- Manual control keypad.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
 Frosty 2 (1206-010) Planned Maintenance Kit 1 Year Schedule 250-00305	(2) 3.2 gallon tanks, 6.3 gallon total capacity	32.5" x 15.8" x 21.9"
Frosty 3 (1206-011) Planned Maintenance Kit 1 Year Schedule - 250-00306	(3) 3.2 gallon tanks, 9.5 gallon total capacity	32.5" x 23.6" x 21.9"

Note: Operate at room temperature between 75 - 90° F.

Note: Mixture must maintain a sugar content between 12-14%; a lower concentration could seriously damage the mixing parts and gear motors.

BARREL FREEZERS

MP Series Crathco® Barrel Freezers

High-Volume, High-Demand

You won't come across another slush machine that is so user-friendly! Provides continuous, rapid production, thanks to its gravity-feed system.

- Serves a variety of frozen smoothies, frozen cappuccinos or lattes, granitas, frozen fruit juices, frozen lemonades, Margaritas and other frozen cocktails.
- High productivity: serves up to 15.8 gallons in one hour (Model MP1-HC).
- Large cylinder and high cooling capacity allow unit to dispense a large number of cups.
- The exclusive polychromatic LED lighting system gives MP a highly attractive appeal (Model MP1).
- Energy efficiency and low consumption.
- Mix low indicator light enables users to refill product before it empties.
- Eye catching back-lit sign draws customers' attention.
- Heavy duty components ensure machine longevity.
- Reliable consistency control dispenses perfect product under all operating conditions.

Note: Operate at room temperature between 75 - 90° F.

Note: Mixture must maintain a sugar content between 12-14%; a lower concentration could seriously damage the mixing parts and gear motors.

FROZEN GRANITA & COLD CREAM DISPENSERS

Crathco

SP Series

Cold Cream and Frozen Coffee

One compact countertop machine creates both chilled beverages like frozen coffee, fruit juices, frozen cocktails, and creamy desserts like mousses, cold creams, slushes, sherbets, and sorbets. Functions with both water and milk added to a powdered base or with ready-to-use mixed product bases to create delicious chilled treats. Easy to clean and user-friendly, this is the perfect solution for restaurants, cafeterias, coffee shops, bars, and hotels.

- Patented UVA Light Sanitization System reduces bacteria by up to 99.9% and prevents unsightly product discoloration as the product level drops. (available on SP ULTRA models only)
- Strategically placed LED lights above and below the product bowl illuminate the product to enhance its appeal and attract more customers. (available on SP 1 LED UV and SP 2 LED UV models)
- The patented Hybrid Texture Control maintains the product temperature so that the temperature gap from full tank to 1/3 tank is dramatically reduced ensuring that the consistency of the product from first to the last serving.
- Bowls are constructed of impact-resistant, BPA-Free material.

FROZEN DESSERTS & COLD CREAM DISPENSERS

Crathco

GT Push Frozen Desserts Dispensers

Easy Freeze

Elegant appearance, small footprint, versatile, and delicious! This compact, multi-purpose wonder creates the perfect thick shakes, soft serve, slushes, smoothies, sherbets, frozen yogurts, frozen fruit drinks and frozen coffees, or whatever your own signature frozen specialty may be!

The GT Push is simple, easy, and reliable, designed to operate with either water or milk-based products to create delicious chilled specialties.

- Transparent bowl and clean white finish encourage impulse purchasing.
- Efficient safety mechanism is activated when cover is lifted. All moving parts automatically and immediately stop.
- LED-based electronic keypad.
- When the product is ready, just press the push button, increasing motor speed, and allowing quicker dispensing.
- All models are certified NSF-6 safe for milk.

GT Push 1 (1206-012) Planned Maintenance Kit 1 Year Schedule - 250-00307	(1) 1.3 gallon insulated tank	26" x 10" x 17"
 GT Push 2 (1206-013) Planned Maintenance Kit 1 Year Schedule 250-00308	(2) 1.3 gallon insulated tanks, 2.6 gallon total capacity	26" x 18" x 17"

ICE CREAM DISPENSERS

Crathco

Karma Soft Ice Cream Dispensers

Ice Cream Cones in 24 Seconds

Delicious soft serve ice cream and frozen yogurt in a compact, quiet, counter-top machine! Its cooled hopper reduces dispense time, as the product is cold before reaching the freezing cylinder. And, don't let the small size fool you. The Karma gives back to the universe by producing 150 ice cream cones an hour!

- Auto defrost/night mode: keeps product fresh.
- Product is ready in a few minutes after start-up.
- Minimum level warning light.
- Customizable dispensing lever.
- 3 consistency levels.
- Certified NSF-6 safe for milk.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
Karma Gravity (1208-002) Planned Maintenance Kit 1 Year Schedule 250-00312	1.85 gallon capacity in cooled upper tank, 0.61 gallon capacity in freezing cylinder, 2.5 gallon total capacity Production Capacity: 20 lbs. per hour - about 150 cones	25.5" x 14.1" x 20.5"
Karma Pump (1208-003)	1.85 gallon (7.0 L) capacity in cooled upper tank, 0.61 gallon (2.3 L) capacity in freezing cylinder, 2.5 gallon (9.3 L) total capacity Production Capacity: 20 lbs. per hour - about 150 cones	25.9" x 14.1" x 20.5"

ICE CREAM DISPENSERS

K-Soft Ice Cream Dispensers

Ice Cream Cones in 24 Seconds

Delicious soft serve ice cream and frozen yogurt in a compact, quiet, counter-top machine! Its cooled hopper reduces dispense time, as the product is cold before reaching the freezing cylinder. And, don't let the small size fool you. The K-Soft gives back to the universe by producing 150 ice cream cones an hour!

- Perfect for users who want to enter soft ice cream market without investing in industrial, oversized equipment.
- Compact counter-top unit, ideal for small spaces.
- Simple, practical, quiet, and reliable.
- Production capacity of 11 lbs. (5 kg) per hour.
- Excellent capacity: 0.92 gallon (3.5 L) in cooled upper tank, and 0.26 gallon (1 L) in freezing cylinder, for a total capacity of 1.2 gallon (4.5 L).
- Air cooling.
- Certified NSF-6 safe for milk.

COOKING EQUIPMENT

FRYERS

Floor Model Gas Fryers 40, 50, 70 lbs

Sleek and Solid

Constructed of heavy-duty stainless steel for long life and easy maintenance, the new Cecilware Pro line of gas floor fryers are built using the best components the industry has to offer. Offering heavy-duty construction at value prices, these tube fryers are ideal for heavy volume restaurants. The deep cold zone meets the demand for healthier foods by preventing the breakdown of oil, and maximizes savings by prolonging oil life span.

Equipped with multiple safety features, and available in either natural or LP gas, with Invensys® thermostat rated at 200 - 400° F, and an auto reset high limit, these fryers also make the job simple!

- Models available using natural or LP gas.
- 6" adjustable legs.
- Two nickel chrome wire mesh fry baskets included.
- Fry pot depth of 30.25".

40 lb Capacity Models

GRIDDLES

Medium Duty Gas Griddles

Professional Results

The ultimate in flexibility for your kitchen! Available in four widths with manually controlled, independent cooking zones and a polished steel cooking surface for the best results in grilling.

- All models can be operated using natural or LP gas. Models ship as natural gas unit with no additional parts necessary for conversion.
- Griddle plate thickness of 1" for better heat retention, faster recovery, and more even heat distribution than thin plates.
- Heavy-duty stainless steel full-cooking depth dual-ported burners for long life and easy maintenance.
- Manually controlled, independent cooking zones.
- Bottom-welded plate for accurate heat distribution.
- Non-welded top plate ensures uniform temperature consistency on cooking surface.

	MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
	GCP15 (6601-1000)	Cooking surface: 15" W x 20" D BTUs per Hour: 30,000	15.75" x 15.5" x 30"

GRIDDLES

Thermostatic Gas Griddles

Exact Temperature

Unlike manual griddles that only have temperature ranges, thermostatic griddles can be set to an exact temperature, and will maintain that temperature within a couple of degrees.

- All models can be operated using natural or LP gas. Models ship as natural gas unit with no additional parts necessary for conversion.
- Griddle plate thickness of 1" for better heat retention, faster recovery, and more even heat distribution than thin plates.
- Heavy-duty stainless steel full-cooking depth dual-ported burners for long life and easy maintenance.
- Manually controlled, independent cooking zones.
- One U-shaped burner and thermostat control for every 12" of cooking surface to maintain even heating.
- Throttling thermostat provides a consistent surface temperature and superior food quality.
- Non-welded top plate ensures uniform temperature consistency on cooking surface.

GRIDDLES

Medium Duty Electric Griddles

Precise Temperature Control

This countertop griddle provides the heating power you need to produce great results while maintaining a small footprint. Delivering uniform heating without hot spots, temperature is controlled by precision thermostats with pilot light indicator.

- Stainless steel body construction.
- Steel cooking surface.
- Concealed, easily cleaned, removable grease tray and convenient rotary controls for precise temperature control up to 572°F.
- 24" x 16" cooking area.
- 1/2" thick machine polished steel griddle plate.
- Welded, stainless steel splash guards.

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
 EL1624 (721250)	1 heating element, 1/2" griddle plate thickness 240V / 2.4 kW / 10A / 1 Ph NEMA 6-20P line cord included.	8" x 24" x 16"

CHARBROILERS

Gas Charbroilers

Flexibility and Performance

The ideal option for the increasing demand of char grilled food. With reversible, heavy-duty cast iron grilling grates for delicate proteins, manually controlled, independent cooking zones, and grates designed to be tilted for different level heating. Available in four widths, and can alternate between lava rock and radiant cooking methods.

- All models can be operated using natural or LP gas. Models ship as natural gas unit with no additional parts necessary for conversion.
- Stainless steel construction for long life and easy maintenance.
- Angled sidewalls and bottom plate reflect heat into cooking zone for better and more accurate heat distribution.
- Lava Rock Kit and Holding Rack options available in 24", 36", and 48".

MODEL	DESCRIPTION	PRODUCT DIMENSIONS (h x w x d)
 CCP15 (6600-1000)	(1) burner, 3" & 6" wide grates BTUs per Hour: 40,000	15.75" x 15.5" x 26.5"

HELPFUL INFORMATION

PRODUCT CERTIFICATIONS

Domestic Certifications

Grindmaster-Unic-Crathco and Cecilware Pro strives to design, create, and deliver the highest quality beverage and cooking equipment to help you build your business. Sanitation, safety, quality, and public health are critical. That is why Grindmaster works with numerous independent, third-party testing and certification organizations to simplify your search for superior equipment. Below are the certifications and marks that we refer to in this catalog, along with a brief description of the standards used to provide certification.

UL

Underwriters Laboratories (UL) is an independent, not-for-profit, nongovernmental organization that has been testing products for public safety for more than a century and has developed more than 1,000 safety standards. UL serves a wide range of customers including manufacturers, retailers, consumers, and regulating bodies.

UL Certification

The UL Certification symbol can be found on products in compliance with UL's safety standards and U.S. safety requirements.

C-UL US Certification

The C-UL US Mark indicates that a product meets the testing standards for UL listing, as well as applicable regulations on that type of product in the United States and Canada. The Canada/US UL mark is optional, but UL encourages those manufacturers with products certified for both countries to use this new, combined mark.

ETL

ETL is the certification mark used by Intertek, a Nationally Recognized Testing Laboratory (NRTL) providing independent evaluation, testing, and certification of any electrically operated or gas- and oil-fired product. A product bearing the ETL listed mark is determined to have met the minimum requirements of prescribed product safety standards. Moreover, the mark indicates that the manufacturer's production site conforms to a range of compliance measures and is subject to periodic follow-up inspections to verify continued conformance. The ETL listed mark is the equivalent of the UL listed and CSA listed marks throughout the United States and Canada.

ETL Sanitation Certification

The ETL Sanitation Mark indicates a product meets applicable requirements for food safety. To achieve it, the item must pass tests by ANSI/NSF standards and the certification shows production conforms to compliance measures for ensuring a food-safe product. Facilities are inspected on a regular basis to verify those standards continue to be met. The ETL Certification with "sanitation listed" inscribed on the bottom of the circle signifies that the product has been tested and deemed compliant with product safety standards.

ETL Certification - United States

A product bearing the ETL Certification with the U.S. mark has been tested and deemed compliant with U.S. product safety standards.

ETL Certification

An ETL Certification Mark signifies that the product complies with both U.S. and Canadian product safety standards.

PRODUCT CERTIFICATIONS

Domestic Certifications

NSF

NSF (National Sanitation Foundation) International is the only third-party testing organization to undertake a complete evaluation of every aspect of a product's development for public health and safety, quality, and sanitation. NSF food equipment standards include requirements for material safety, to ensure the product will not leach harmful chemicals into food; design and construction, to ensure the product is cleanable and is not likely to harbor bacteria; and product performance. As part of the certification process, the production facility is subject to unannounced plant inspections.

NSF Certification

The NSF Certification Mark on a food equipment product confirms that NSF has assessed and certified its conformity with the relevant NSF/ANSI food safety standards. Products with the NSF Mark receive guaranteed regulatory acceptance in North America and improved acceptance worldwide.

ELECTRICAL

NSF Electrical Certification

The NSF Electrical Mark certifies electrical safety certification and compliance with U.S. requirements.

C US
ELECTRICAL

cNSFus Electrical Certification

NSF is accredited by OSHA as a nationally recognized testing laboratory to provide electrical safety certification to various UL standards in a wide range of foodservice equipment categories. The cNSFus Mark indicates compliance with both Canadian and U.S. requirements.

NSF-20

NSF-20 Certification

NSF International, in conjunction with ANSI has created the NSF / ANSI 20 certification. This establishes minimum food protection and sanitation requirements for the materials, design, fabrication, construction, and performance of commercial bulk milk dispensers and their related components. This includes equipment designed to dispense servings of milk or milk products by manual or machine actuation. This standard does not apply to dispensing freezers (soft-serve machines), vending machines, or manual food and beverage dispensing equipment covered by the scope of other NSF standards.

The American National Standards Institute (ANSI) is a private non-profit organization that oversees the development of voluntary consensus standards for products, services, processes, systems, and personnel in the United States.

CSA

CSA (Canadian Standards Association) International is an independent, not-for-profit member-based association that tests products for compliance with national and international safety and performance standards. CSA Group is recognized and accredited in the U.S. by OSHA, which enables them to use the U.S. standards written or administered by organizations including ANSI, UL, and NSF, among others.

CSA Certification

The CSA Mark signifies that the product meets applicable U.S. and Canadian standards, including those from CSA, CSA America, ANSI, ASME, ASSE, ASTM, NSF, and UL. If a product has features from more than one area (such as electrical equipment with fuel-burning features), the mark indicates compliance with all applicable standards.

CSA Star Certification Mark

Indicates that the product was tested and has met the certification requirements for gas-fired products in the United States.

CSA Flame Certification Mark

Indicates that the product was tested and has met the certification requirements for gas-fired products in Canada.

ORDERING INFORMATION

Important Information When Ordering Equipment

Credit Terms:

- Net 30 days from date of invoice with approved credit application. Credit applications for open accounts normally take 10 working days for approval unless rated by Dun and Bradstreet as high or good.
- We welcome credit cards.
- Customers without open accounts are required to send payment in advance or pay by credit card. A cashier's check or money order can be accepted. No C.O.D. orders.
- Minimum order is \$100 list price.
- No goods can be returned for credit without our prior written consent and return goods authorization, and will be subject to a 30% re-stocking charge and return shipping costs.

Freight:

- All equipment orders, on a single PO, of \$6,500 net invoice or more to a single destination in the contiguous U.S. are freight prepaid ground shipping only by Grindmaster.
- Prices subject to change without notice. Check www.grindmaster.com for current pricing or contact Customer Service at 1.800.695.4500.
- Product availability subject to change. Contact customer service for current product availability at 1.800.695.4500.

Catalog Specifications:

- Images and photographs are meant to be representative of the Grindmaster products and may not depict existing or proposed improvements. In keeping with Grindmaster's policy of constant innovation and advancement, the products pictured in this catalog may vary slightly from the actual delivered product and are not meant to be exact representations of the same.
- Product specifications are subject to improvement or change.
- Supersedes all previous price lists.

Installation Recommendations:

- 120/240 electrical designation may require power supply to provide both 120V and 240V. Contact factory for model-specific information.
- Conversion orifices are not available for gas-fired products already in service. Per ANSI/CSA Z83.11-2006, conversion orifices must be included with the appliance.
- Water connections must be per applicable federal, state, and local codes. Your local installer and /or the plumbing inspector can provide guidance.

Product Certifications:

- See Product Certifications section in this catalog for a complete listing and description of the independent certifications and marks referred to in this catalog.
