

**HEALTHCARE FOODSERVICE**

FULL RANGE OF UNITS TO HANDLE  
MEAL PREP AND SERVING CHALLENGES

## Solutions for Daily Service

Preparing high quality, fresh and nutritious meals is a daily mission and purpose in healthcare facilities such as hospitals, long-term care, and senior living facilities. Having the right equipment and human talent together is a must to get the job done. In addition, food safety in a healthcare facility is of utmost importance to ensure the patient and resident's wellbeing is not further compromised.

Victory refrigeration is uniquely qualified to work with the Healthcare Foodservice industry. For decades, Victory's unsurpassed quality, durability and performance have helped many Healthcare Foodservice operations meet the high demands of food preparation, food safety and quality assurance.

## ULTRA SPEC SERIES

UltraSpec models feature some of the most advanced technologies available from a spec line manufacturer today. Standard with R290 refrigerant, variable speed compressor, adaptive defrost and thermal expansion valves, Victory UltraSpec series can deliver up to 30% energy savings.

The UltraSpec series offers a vast selection of refrigerators, freezers and warming cabinets available in: reach-in, roll-in, roll-thru, pass-thru, narrow width, extra wide and extra tall models to fit any food service need.

## AIR CURTAINS

With their stainless steel interior and exterior, Victory Air Curtains offer heavy-duty, 20-gauge stainless steel door with a stay-open door feature and a 270° door swing for easy product loading. In addition to the standard model, pass thru and retractable, sliding door models are also available.

Standard with R290 refrigerant, an electronic control, Victory Air Curtains are capable of maintain product temperatures at or below 41°F for up to 90 minutes with door open, when used as directed.

## GLASS DOOR MERCHANDISERS

Sleek, modern refrigerator and freezer models available in one, two and three door sections. Victory merchandisers offer a stylish design and are available in a variety of color options to liven the dining area.

Featuring advanced refrigeration technologies, triple-pane ultra-glass doors, LED lights, and locks, Victory's merchandisers are sure to increase interest in grab-and-go food items and beverages.

## BLAST CHILLERS

Utilizing a blast chiller will help preserve the quality of food, saving time and money on spoiled and discarded product. Victory's blast chillers offer stainless steel interior and exterior and has a central floor for easy cleanup.

Product loading is a breeze with a 270° stay-open door and the electronic control with LCD display and core sensor probs ensure precise control of chilling cycles.
