

WALK-INS

RESTAURANTS

QUALITY IS OUR MAIN COURSE.

From fast food and casual dining to some of the most acclaimed, trendsetting restaurants in the world, American Panel understands the needs of the foodservice industry and what it takes to build a truly functional walk-in unit. It's about getting the perfect configuration, plus the specific accessories you need to get the most out of your cold storage solution.

With new restaurant concepts appearing every day, American Panel is proud to offer more options than ever, whether it's glass doors for beverage display, view windows for meat aging, angled walk-ins for smaller kitchens or rain roofs for outdoor units.

And, as always, restaurant operators and foodservice consultants can feel confident when they specify American Panel because every unit is pre-assembled and tested before shipping — just part of our commitment to stand behind everything we build.

A HISTORY OF GETTING IT RIGHT.

American Panel walk-ins have long been recognized for their reliable performance, lasting durability and exceptional value. Each cooler, freezer and refrigerated building is consistently delivered in spec, on schedule and within budget.

To ensure product quality, walk-ins are designed with the help of our experienced sales and engineering team. Our entire production staff is dedicated to zero-defect manufacturing throughout the facility, and every unit is pre-assembled in its entirety at the factory before shipping. This extra step guarantees that your system will function properly at your site, every time.

Count on the experience and craftsmanship of American Panel to get it right on your next project. You'll feel the quality the moment you walk in.

A NAME YOU CAN TRUST.

Since our founding in 1963, customers have relied on American Panel for our friendly and efficient customer service, thoughtful product design and superior craftsmanship. Our consistent, fair and honest way of doing business sets the benchmark for the industry today.

Our walk-ins are available for both indoor or outdoor applications — and we recognize the value of consistent quality and on-time delivery to our customers in the restaurant industry. So whether you're expanding your facility, planning a new location or rolling out a new chain concept, American Panel has the knowledge and experience to satisfy your every need.

MAKE AMERICAN PANEL QUALITY YOUR VERY OWN.

Every walk-in unit we manufacture is built to spec using superior materials, and is available with a wide selection of door locations and overall sizes. Within your fully custom configuration, you can choose from a variety of features and accessories that suit your specific needs. When your walk-in is complete, you'll have the perfect balance of efficient insulation, cost-saving operation and maximized capacity.

At American Panel, we're not just committed to building the best walk-in on the market. We're driven to build the best walk-in for you.

... Take a look at what makes American Panel a true leader in the industry.

... Metal finishes, available in a wide variety of easy-to-clean colors and textures, provide for an attractive appearance and ultimate durability

... Available in standard sizes or custom configurations with a full complement of application-specific accessories

... 4"-thick foamed-in-place urethane construction provides superior insulating values, structural rigidity and total compliance with all nationally recognized building codes

DEPENDABILITY.

AT THE HEART OF EVERY
WALK-IN WE BUILD.

American Panel's complete line of energy-efficient refrigeration equipment is designed for easy installation and reliable performance. Capacities for each system are adjusted for specific ambient temperature, altitude and product load. Plus, our indoor or outdoor units are supplied with a wide selection of site-specific controls and accessories, and come standard with a five-year compressor warranty.

... Fiberglass reinforced polymer (FRP) door and frame perimeter is corrosion-proof, impact-resistant and will not absorb moisture

... Standard on every unit, our multi-functional and fully programmable walk-in monitoring system helps safeguard your products while controlling energy consumption

WALK-INS

ENVIRONMENTALLY FRIENDLY.

At American Panel, we are proud of our commitment to environmental sustainability. Through partnerships established with our valued customers and vendors, we will continually strive to manufacture products that comply with state and federal environmental standards, minimize environmental impact and conserve energy. Through pioneering advances in insulation technology, the utilization of more energy-efficient refrigeration components and effective waste management, we will remain dedicated to making responsible manufacturing a top priority.
